Figure 1 consists of two cross-sectional views, (A) and (B), of a multi-layered structure. Both views show a stack of layers labeled 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, and 32. Layer 10 is the topmost layer, and layer 32 is the bottommost layer. Layer 12 is a wavy layer, and layer 14 is a hatched layer. Layer 16 is a thin layer, and layer 18 is a wavy layer. Layer 20 is a hatched layer, and layer 22 is a wavy layer. Layer 24 is a hatched layer, and layer 26 is a wavy layer. Layer 28 is a hatched layer, and layer 30 is a wavy layer. In view (A), the layers are shown in a static state. In view (B), arrows indicate a process or flow between layers 12 and 14, suggesting a dynamic or manufacturing process.
